

Senior, Professional C# Software Developer

Overview

Croptimistic Technology (SWAT Maps) builds leading-edge technology for Precision Agriculture. We are a stable start-up company that has been in business for several years. We are starting to really scale, heavily investing in R&D, and building new cutting-edge products.

We are looking for a talented Senior C# .NET developer to join our team.

Candidates should be very knowledgeable in C# and .NET. Experience developing clean code using best practices such as SOLID principles and test-driven development is a must.

We develop for mobile, desktop, and web and have complex backend services. This position will have a lot of variety including GIS, 3d, AI, & cloud services.

If you are top professional and team-member who is passionate about .NET, this is a position where you will be able to make a big difference and learn even more.

Qualifications

Required:

- 5+ years .Net C# development
- Advanced knowledge of .Net C# patterns & best practices
- Databases (PostgreSQL)
- API development
- Experience with cloud services (AWS, docker, Kubernetes)
- Web service design, development, and integration (JSON, REST)
- Experience with complex, enterprise-level software development
- Strong refactoring and debugging skills
- Passion for software automation, including tests and continuous integration / delivery (CI/CD)
- Software Architecture & design skills
- Ability to deliver results both collaboratively and independently

Preferred:

- Degree in software development, or similar training
- Practical experience with TDD/BDD/DDD, and automation
- Familiar with Lean-Agile iterative & incremental development (Scrum / Agile / XP / Kanban)

Location

Kelowna BC (Temporarily Remote)

Fully remote will be considered within Canada

Compensation/Benefits

- Medical/Dental plan
- RRSP Matching
- We are willing to pay very well for the right professional.

How to Apply
